## FALLING INTO LEARNING - OCTOBER TUTORING UPDATE

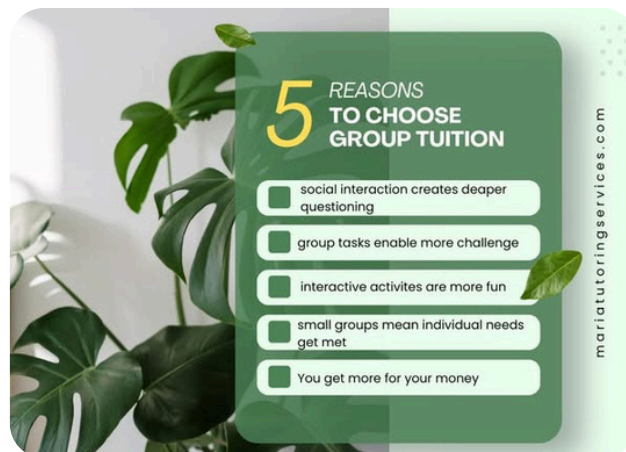

**As autumn settles in, we are excited to share what's been happening at this month!**

Our Home Education programme is thriving, with spaces filling up fast! We are proud to support a growing number of students across Maths, English, Enrichment, our hands-on K'Nex Club, and our accredited Science and Art & Design qualifications.

We have over 50 students that we tutor, with many of them being on our home-ed package.

Behind the scenes, we're working hard to get our teacher training workshops officially certified, ensuring the high quality of our training is formally recognised.

And finally, a big **good luck** to our students preparing for their first exams of the academic year this **November**, we're so proud of your dedication and can't wait to see you shine!

**After school spaces are nearly full with just 3 spaces left.**

**English** sessions run on **Friday** evenings

**Maths** is available on **Monday** or **Wednesday** evenings

Get in touch to secure your spot before they're all gone.

**NEW RESOURCE**

**RESULT**

- ✓ Engaged learner
- ✓ 21 questions in 30 minutes
- ✓ visual
- ✓ success
- ✓ a disliked topic made fun

**MONEY MATHS**

[www.mariatutoringservices.com](http://www.mariatutoringservices.com)

We've noticed that many of our students are less confident when it comes to handling money, a skill that's becoming increasingly important, yet less practiced in everyday life.

With the rise of contactless payments and online shopping, fewer children are getting the chance to handle real money or make purchases in person.

That's why we're weaving more real-world maths into our sessions, helping learners feel more confident with money, budgeting, and everyday numeracy.

Our team regularly attends training and development sessions to stay up to date with the latest educational practices. This commitment allows us to continue offering a five-star service to every student and family we support.

Behind the scenes, we're also working hard to ensure that the quality of our teaching remains second to none.

We're currently in the process of getting our teacher training workshops officially certified, so that the high standards we hold ourselves to are formally recognised.

We peel back the layers and work out what a student needs

**THE 5 STAR TUTORING SERVICE**

While attending training we were asked to take a photo with an onion, so we did
