February 2026

FEBRUARY NEWS AND UPDATES!

As we head into February, we're continuing to strengthen our knowledge and the support we provide to our learners.

During half term, Nick and Maria will be attending an alternative education event in Oxford, focusing on funding opportunities for delivering EOTIS packages (Education Other Than In School) which are tailored, structured learning programmes designed for students who cannot access mainstream education for a variety of reasons.

We're excited to learn more about upcoming developments and how these opportunities can benefit our families.

There's lots more to share this month, so we hope you enjoy reading the rest of the newsletter.

Every three months, Maria takes part in a tutoring network event held on Saturdays to stay up to date with the latest developments in the education industry. These sessions are always inspiring, with a mix of expert speakers and practical insights that help us continue improving the support we offer our students.

This month's speaker is Carrie Ann Booth a multi-award-winning Science Edu-tainer, Founder and CEO of The Science Booth and The STEAM Educators' Staff Room, who is delivering a TED Talk 'Education is the passport out of poverty, and science can change lives'

HOME ED SOCIAL POSTPONED

Unfortunately, due to unforeseen issues with our venue, we've had to postpone this month's Home Ed Social

We're currently searching for a new space and will share updates as soon as we can.

Thanks so much for your understanding.
